VOLUME CVII.--NO. 93. ALEXANDRIA, VA., TUESDAY EVENING, APRIL 17, 1906. PRICE 2 CENTS.

Eminent Doctors Praise its Ingredients.

We refer to that boon to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John Fyfe one of the Editorial Staff of THE ECLECTIC MEDICAL REVIEW says of Unicorn root (*Helonias Dioica*) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a uterine invigorator * * * makes for normal activity of the entire reproductive system." He continues "in Helonias we have a medicament which more fully answers the above purposes *than any other drug with which I am acquainted.* In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent." Dr. Fyfe further says: "The following are among the leading indications for Helonias (Unicorn root). Pain or aching in the back, with leucorrhœa; atonic (weak) conditions of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women, constant sensation of heat in the region of the kidneys; menorrhagia (flooding), due to a weakened condition of the reproductive system; amenorrhœa (suppressed or absent monthly periods), arising from or accompanying an abnormal condition of the digestive organs and anæmic (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or Helonias, and the medical properties of which it most faithfully represents.

Of Golden Seal root, another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says:

"It is an important remedy in disorders of the womb. In all catarrhal conditions * * * and general enfeeblement, it is useful."

Prof. John M. Scudder, M. D., late of Cincinnati, says of Golden Seal root:

"In relation to its general effects on the system, *there is no medicine in use about which there is such general unanimity of opinion.* It is *universally* regarded as *the* tonic useful in all debilitated states."

Prof. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal:

"Valuable in uterine hemorrhage, menorrhagia (flooding) and congestive dysmenorrhœa (painful menstruation)."

Dr. Pierce's Favorite Prescription faithfully represents all the above named ingredients and cures the diseases for which they are recommended.

TO KILL THE DANDRUFF GERM.

Is the Only Possible Way of Having An Effective Cure.

If you see a woman or a man with luxuriant glossy hair, you may be sure neither has dandruff to amount to anything. In nearly every case where women and men have thin brittle hair, they owe it to dandruff. There are hundreds of preparations that "claim" to cure dandruff, but not one but Newbro's Herpicide tells you that dandruff is the result of a germ burrowing into the scalp, and that permanent cure of dandruff and its consequent falling and baldness, can only be had by killing the germ; and there is no other preparation that will destroy that germ but Newbro's Herpicide. "Destroy the cause, and you remove the effect." Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Charges Against Dr. Crapsey.

The trial of Rev. Algernon S. Crapsey, pastor of St. Andrew's Church, Rochester, N. Y., will be of great importance, not only to the Episcopal Church but to all denominations that subscribe to the Apostles' Creed.

The charges of heresy contain the following quotations from his sermons:

"Seventy-three years after the death of Julius Cæsar, Jesus of Nazareth, the son of Joseph, a carpenter of Galilee, laid aside the tools of his trade and went down to the crossing of the Jordan, attracted by the preachings of a new and strange preacher who was stirring up the people by his vigorous denunciations of the evils of the day."

"The history of Jesus is the product of historic causes. He was born in time to meet a great opportunity, and Jesus was the man created for the purpose of insugurating the movement that was to change the base of human life. We have thought of him so long as a mythological being; we have talked of him so long as a metaphysical abstraction, and have placed him for centuries out of the range of human vicissitudes, at the right hand of the Majesty on high, that we cannot view him in his historical relations without a shock to our reverence. Yet this historical Jesus is the real Jesus, the man of God who founded the religion called Christian."

"Jesus did not succeed because he was born of a virgin or because he was reported to have risen bodily from the dead. These legends concerning him are the result, not the cause of the marvelous success of the man. These stories were told of him because the simple people could in no other way express their conception of the greatness of Jesus."

"The creeds of Christendom are of value not as historical statements, for the primitive and medieval Christian had no historical sense."

"The religion of miracle, which the primitive imagination created, held full possession of the world down to the beginning of the scientific era—1530. From that day to this the religion of reason has been in conflict with the religion of fancy, and truth has been contending with imagination."

"In the light of scientific research the founder of Christianity no longer stands apart from the common destiny of man in life and death, but he is in all things physical-like as we are, born as we are born, dying as we die, and in both life and death in the keeping of that same divine power, that heavenly father-hood which delivers us from the womb and carries us down to the grave."

"We are not alarmed, we are relieved, when scientific history proves to us that the fact of his miraculous birth was unknown to himself, unknown to his mother, and unknown to the whole Christian community of the first generation."

Mutiny in Portuguese Navy.

Portuguese newspapers received in Madrid state that the warship Vasco de Gama, on which the mutiny occurred, anchored in the Lisbon roadstead on Friday. About 8:30 p. m. a disturbance was noticed aboard the vessel. There was shouting, reports of fire-arms were heard and signals were set asking for help. A tug put off to the anchorage, but it was received with rifle shots and forced to return. Other vessels received the same treatment. It was reported that a lieutenant had been killed to avenge a sailor, whose brains the officer had blown out as the sailor was about to fire a gun in the direction of the shore. The Vasco de Gama exchanged many signals with the Don Carlos I., on which a mutiny occurred on Monday last.

The Lisbon correspondent of the London Daily Mail says that all the Portuguese warships have been sent out of the Tagus. Each of them will make a cruise at sea. The mutinous vessels, however, will cruise within reach of the guns of the forts. It is feared that the mutinous spirit is spreading to the army. One regiment is reported to be insubordinate. A strict censorship is being maintained.

Mourning Over Wrong Body.

Thomas C. Hunt, of Pittsylvania county, was killed a few days ago at Basic City by being knocked off a train by an overhead bridge. He was identified as Thomas B. Hunt, of Rocky Mount, and C. L. Hunt, of that town, was notified by wire that his brother had been killed. The body was prepared for burial and shipped to his supposed brother. The funeral services had been arranged for on arrival of the body, which was met at the station by a concourse of sorrowing friends and relatives. The casket containing the body was taken to a church, where the funeral was preached Saturday. Before removal to the cemetery the coffin was opened, when it was discovered that the body was that of another man. It afterward developed that it was Thomas Hunt, of Pittsville, Pittsylvania county, and the remains were forwarded to his home for interment.

Duel With Axes.

Two aged veterans of the civil war, inmates of the Soldiers' Home at Yountville, Cal., fought a duel to the death with axes yesterday morning on Cooper Branch, near San Francisco, where they were employed as woodchoppers. Joe Johnson, who was killed, was the elder of the two men. His assailant, William Voss, is not much younger, but he proved more alert in wielding a murderous weapon. Both men had been employed as woodchoppers. They went to work yesterday morning as usual. Shortly after 9 o'clock word was received of the tragedy At the place where Johnson's body was found there is evidence of a fierce struggle. The foliage is covered with blood. The axe used by Voss was found near by. The fatal blow had been struck with great force and the keen edge had sunk far into Johnson's skull. Death must have been instantaneous. Voss did not sustain any injuries There seems to have been no eyewitnesses to the tragedy, and the story told by Voss is the only one upon which the authorities have to work. He simply states that they had quarreled and that Johnson came after him with an axe. He met the assault and returned blow for blow until his assailant fell to the ground.

Temple of Diana Found.

King Edward and Queen Alexandra will arrive at Athens today. The visit of the King and the Queen auspiciously coincides with the announcement by Dr. Bosanquet, director of the British School of Archeology at Athens, that he has discovered on the bank of the River Eurotas nearest to the side of the ancient city of Sparta the famous Temple of Artemis, with a profusion of statuettes, gold, silver and ivory ornaments and other interesting relics. Dr. Bosenquet first communicated his discovery to King Edward, who yesterday telegraphed his congratulations.

The Temple of Artemis (Diana of the Ephesians) was founded 600 years before the Christian era, in Ephesus, and was rebuilt 200 years later. The temple was Ionic, dipteral, octastyle, with 21 columns on the flanks, add measured 164 by 342½ feet. The base diameter of the columns was 6 feet, their height 55 feet. The basedrums of 36 columns of the front and rear were beautifully sculptured with figures in relief. The cella had interior ranges of columns, Ionic in the lower tier and Corinthian above.

A Young Mother of 70.

"My mother has suddenly been made young at 70. Twenty years of intense suffering from dyspepsia had entirely disabled her, until six months ago, when she began taking Electric Bitters, which have completely cured her and restored the strength and activity she had in the prime of life," writes Mrs. W. L. Gilpatrick, of Danforth, Me. Greatest restorative medicine on the globe. Sets Stomach, Liver and Kidneys right, purifies the blood and cures Malaria, Biliousness and Weaknesses. Wonderful Nerve Tonic. Price 50c. Guaranteed at E. S. Leadbeater & Sons' drug store.

About Rheumatism.

There are few diseases that inflict more torture than rheumatism and there is probably no disease for which such a varied and useless lot of remedies have been suggested. To say that it can be cured is, therefore, a bold statement to make, but Chamberlain's Pain Balm, which enjoys an extensive sale, has met with great success in the treatment of this disease. One application of Pain Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures by its use. Why suffer when Pain Balm affords such quick relief and costs but a trifle? For sale by Gibson and Timberman and W. F. Creighton and Company.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

TUESDAY EVENING, APRIL 17, 1906.

THOUSANDS of children are stamped as illegitimate by what is probably the most sweeping decision upon the divorce laws of the nation ever rendered by the Supreme Court of the United States. The principle established by the decision, which was handed down by the Court yesterday, as stated in the Gazette of that day, is that a State cannot grant a divorce when but one party to the marriage is a resident within its jurisdiction. A divorce must be of such a character as to be respected by all the other States. The effect of the decision is to nullify all divorces granted where both parties did not reside in the State issuing the decree of separation. This will include all divorces granted in South Dakota, where one party has gained a temporary residence for the express purpose of securing a separation, the other party not having lived in that State. In a general way it will affect nearly all the States, decrees being issued where notice was served by publication, the other party being a non-resident of the State. Several recent divorces of well-known society people of New York are made illegal by the decision of the court. It is estimated that at least 20,000 children are the innocent sufferers of this newest judicial ruling, losing their legitimacy. These children are the offspring of marriages based upon divorces granted where but one of the parties reside in the State issuing the decree of separation.

DISPATCHES from different parts of the globe during the past two or three days show the spirit of turbulence rife in the world. It is said that over three hundred men have been killed in a mutiny at Tiflis, Russia; a mutiny is in progress on Portuguese men-of-war; several men have been killed in miners' riots in Pennsylvania; three men lynched without judge or jury in Missouri; ten Greeks slaughtered in a fight following a dispute in the southern country as to whether last Sunday or Monday was properly Easter; a race war in the same section, while murders and suicides have been the most prominent features in the telegraphic columns of newspapers. Apart from these horrors echoes of the disaster wrought by Mount Vesuvius are still being heard. Hundreds of human beings have been killed by the volcano and the damage to property will, it is estimated, reach one hundred million dollars. Storms in the southern Pacific have also wrought death and destruction.

DUN'S REVIEW shows that prices are 6 per cent. higher now than they were on October 1, and while this means more net income for producers and presumably for middlemen, it is a substantial income tax on consumers, few of whom have experienced any increase in income since last fall. Dun's tables show no prices so high as the present since 1880, at the beginning of which the index figure was 122,679. The low point in prices for forty-six years was July 1, 1897, when the index figure was 79.45, since which time prices have advanced more than 46 per cent.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, April 17.

President Roosevelt will probably be a candidate to succeed his successor in 1912. There is little doubt in the minds of the President's friends that he intends to stick to his determination to retire at the end of his present term and that no considerations will prevail upon him to become a candidate in 1908. By the end of his present term, the President has told some of his most intimate friends, he believes he will have made a host of powerful enemies, so many, in fact, that he would be an easy man to beat were his party to make him its standard bearer at that time. From now until the end of his term, as the President has put it, he will be obliged to be "very harsh to many interests," however, by the time the presidential campaign rolls round, in 1912, he feels confident that there will be a general demand for his candidacy. It is said on good authority that at the end of his present term President Roosevelt would like to succeed Thomas C. Platt as United States Senator. He thinks he would be more useful in that position than at the head of a university.

With the second day of the fifteenth Continental Congress of the Daughters of the American Revolution, the floor of the Congress assumed a belligerent appearance. Politics seeped out of the proceedings at every turn, for many women are trying to chisel out a record for themselves and are wide awake for an opportunity to strike a blow. Mrs. McLean, the president-general, saw some of these opportunities herself. New York State is the center of attraction so far. With a member in the presidential chair and 142 delegates, more than one-tenth of the entire convention, on the floor, the State is inclined to take notice of herself. Then Mrs. Charles H. Terry, State regent, wants to be elected vice president-general, despite the fact that New York is represented among the twenty now holding office by Mrs. J. Cunningham Hazen. Mrs. Hazen will remain among the list for another year. In the seating of the delegations, Mrs. Terry saw an opportunity to put in a word for her cause. "New York has 142 delegates present and but 100 seats allotted to her," she complained, seemingly much aggrieved. This gave Mrs. McLean an opening to say a few sweet things about the might of New York and the unbounded interest the daughters of that State took in patriotic affairs.

The lottery of number has played a trick on the Congress that many fear may have a tragic ending. By the merest chance Mrs. Walter Harvey Weed, the vice State regent of Montana, and Mrs. Draper, of the District of Columbia, who brought the charges of fraud in election against Mrs. Weed are seated in the same row of seats with only the aisle between them. It is said only the constitutional questions in the case will come up but every eye in the Congress will be turned toward those two seats, located in the raised section under the galleries, in expectation of friction from personal contact.

Mrs. McLean has proven herself as able a presiding officer as her friends predicted she would last year during their campaign. Even her enemies concede that she presides with unquestioned fairness. The first business of the morning session was the announcement by the president-general of the committees for the congress. The report of the national officers followed, Mrs. McLean, herself, presenting that of the national board of management and Mrs. Charlotte Emerson Main, that on the organization of chapters. Mrs. Hamlin in her report of chaplain-general said that the congress should use its influence upon the national legislators to see that the "octopus of Mormonism does not anchor its tentacles into our national life." She continued that the sisters in the South should be helped in dealing with the negro American. "They know better than we do, the meaning of that question," she continued.

Mrs. B. A. Fessenden, of Highland Park, Illinois, was this morning re-elected State regent of the D. A. R., for Illinois and Mrs. Ireton, of Ottawa, Ills., was elected vice State regent.

March just passed will be remembered throughout Europe, according to a statement published today in the official Crop Reporter of the Agriculture Department, as the most unfavorable month for crops in many years. Soil already saturated with the excessive rainfall of winter received further accessions of moisture over wide areas. Spring sowings were seriously retarded and are reported not to be far in arrears. This condition prevails not only in Great Britain, but in Holland, France and Spain. In Germany and Austria fair progress was made in spring sowing, and reports from Russia indicate that there was little interference.

A movement is under way in American Federation of Labor circles for the appointment of Oscar J. Ricketts, late foreman of printing at the Government Printing Office, as legislative agent before Congress and the departments for organized labor. A number of trades have lobbyists now in Washington. The idea arose from a proposition of the local printers to employ Ricketts to fight against having any government printing done by private contract.

After he left Cuba Mr. Springer was made vice-consul at Kingston, Jamaica, where he served for some time after the war. He returned to Cuba as a clerk in the consulate general at Havana, being later transferred to Cardenas. Mr. Springer's brother is now vice-consul at Havana.

Forty-two $20 gold pieces were recovered from the pockets of the dead negro.

President Roosevelt has decided to appoint Charles B. Aycock, former governor of North Carolina, and Van Lear Polk, of Tennessee, members of the delegation from the United States to the pan American conference which is to meet in July, at Rio Janeiro. These appointments are to be made in accordance with the wishes of southern members of Congress, who, in view of the fact that many of the questions to be considered by the conference are of especial interest to the South, have felt that men identified with that section of the country should be members of the commission.

Charles Morrow, the negro who on Sunday shot to death Mrs. Martha J. Bass, a white woman of Huntington, W. Va., was late yesterday afternoon arraigned on a charge of murder. Morrow's attorneys waived examination, and the prisoner was taken back to jail to await the convening of the grand jury early in May. Morrow yesterday morning confessed to his crime, and stated that for weeks he had been carrying letters to the woman for another man, and that he himself became infatuated with her. When he told her this she severely censured him and he shot her in a jealous rage. Feeling is yet very strong against Morrow, but mob violence is hardly probable.

An attempt was made at an early hour yesterday morning to blow up the Casino at French Lick Springs near Orleans, Ind., with dynamite. The effort to destroy the building was only partially successful. A portion of the wall on one side was caved in, every window in the entire structure shattered, and a portion of the veranda roof blown away. The sound of the explosion awakened all the guests in the French Lick Hotel, a hundred feet from the Casino. Many of the men rushed out into the night air lightly clad and flourishing their revolvers, for they believed safe robbers were making an attempt to blow up the bank. There is no clew to the dynamiters, but it is believed that the act was the work of persons opposed to the gambling that has been carried on in the Casino.

Greeks Reported Killed.

Ten Greeks are reported killed in a riot at the little station at Gurley, Ark., forty miles south of Helena, Ark., on the line of the new Memphis, Helena and Louisiana Railroad. Others were injured, but the number is not known. Gurley is at the end of the construction work on which the Greeks were engaged.

The rioting began in a dispute between Roman Catholics and adherents of the Greek Church as to a date on which Easter should be celebrated.

Those who believed Sunday the day of days, ordered beer and whisky from Helena to live up to things. While willing to join in the carousal, the Greek Church adherents insisted that their calendar was correct. Bad feeling soon cropped out, and from individual quarrels the matter broadened into a religious riot.

Sunday afternoon shooting was general, and seven men were killed by the time a messenger got away for Helena. Sheriff Frank Kildeens and twenty deputies left for the scene of the rioting.

Nothing was heard from Gurley until yesterday morning, when a message was received from the sheriff saying that with his force he could not quell the riot and asking that Gov. Davis be requested to send troops. He added that three more men had been killed. The governor responded by ordering troops to the scene.

Killed in a Riot.

A dispatch from Johnstown, Pa., says that three men were shot dead, a boy fatally wounded and a mining engineer, Eugene Delaney, taken to the hospital in a serious condition, and several others of the rioters sustained slight injuries as the result of a riot at Windber among the striking coal miners last night.

The place is in a state of terror, Sheriff Begley has been summoned, and an appeal has been made to Governor Pennypacker for troops. The dead men and most of the injured are foreigners, and their names cannot be obtained. The bodies are lying in the street where they fell, the strikers refusing to allow the undertakers to remove them.

The foreign element had been celebrating Easter Monday, and much liquor has been used. The streets were thronged all day with a boisterous crowd, but no sign of trouble appeared last night. A body of strikers were assembled in front of the Windber jail discussing the mass-meeting that had been held during the afternoon and which had been addressed by three Catholic priests. The discussion grew into a dispute, and soon there was a free-for-all fight.

Deputies sworn in when the strike in the coal mines was first inaugurated appeared, and a number of arrests were made. All the prisoners were union men, and their colleagues set up a cry that they were being discriminated against.

The prisoners were marched to the lockup door, but there a mob had formed, and an attempt was made to take the men from the officers. Forced back from the jail door, the mob, growing more violent every minute, threatened the deputies until the officers fired. The mob hesitated, apparently not expecting the deputies would resort to arms. When the smoke had cleared away and the victims of the shots were viewed by the crowd there were cries of anger, and soon armed miners returned the shots of the deputies. The firing ceased almost as soon as it began, however, and the crowd filed away from the jail.

There is much dynamite stored at Johnstown, and it is feared the strikers will resort to the explosive in revenge.

Strike of Linemen.

A dispatch from Atlanta, Ga., says that the strike of the Southern Bell Telephone Company linemen, which has been rumored for sometime, was inaugurated yesterday. None but the linemen are involved. Col. W. T. Gentry, vice president of the company, declares that only 400 men out of 1,000 employed in the territory affected are out, while Dale Smith, of Washington, president of the district councils, Nos. 1 and 2, International Brotherhood of Electrical Workers, asserted that 80 per cent. of 1,200 to 1,400 men in the territory are out. The contest which will be fought out in Atlanta affects West Virginia, Virginia, North Carolina, South Carolina, Georgia, Florida and Alabama. The linemen state their claims to be a nine-hour day, time and a half for overtime, double time for Sundays and holidays, and increase in wages for linemen, apprentices and instrument men. It is said by officials of the company that the men who struck were receiving more money than was demanded by the union. The highest daily wage demanded by union officials was $2.75 a day of nine hours. The company was paying first-class linemen $2 70 a day of nine hours, giving them two hours off on Saturday, for which they received full pay, making their total wages average $2.80 a day.

Killed by a Negro.

A posse of 150 Kentuckians, following a brace of the most sagacious bloodhounds in that State, kept hot on the trail yesterday of an unknown colored man, who is wanted for the cold-blooded murder of Thomas R. Fleming, a young engineer on the Queen and Crescent Railroad. Had the man been captured a mob was organized to take him from the possession of the authorities and make short shift of his punishment. Fleming was the engineer of a "hill engine" that was utilized to assist trains over the heavy grades about Ludlow, Ky. About 2 o'clock yesterday morning his engine was boarded by a burly colored man, who took a place on the rear of the tender. The engineer ordered the man off the car, but he refused to move, saying he was going to ride to Knoxville, Tenn. Fleming started toward the fellow, climbing over the coal pile in the tender. As he advanced, the negro drew a revolver, and shot him twice through the head. Fleming died in a few minutes. The pistol user jumped from the engine and escaped. The victim was very popular and a mob of 100 railroad men that formed, waited about Ludlow all day for the return of the posse. Yesterday evening word was received from a point ten miles south of Ludlow, stating that the negro had not been located. The chase will be resumed today.

Today's Telegraphic News

Frightful Automobile Accident.

Millville, N. J., April 17.—The most shocking automobile accident ever occurring in South Jersey took place one mile above this city at one o'clock this morning, the result of which is that Robert J. Wright, of Philadelphia, a rising young lawyer, lies dead. The injured are: Frank H. Mullin, of Philadelphia, leg horribly bruised; Thomas J. Meagher, of Philadelphia, contusions of face and head and shoulder sprained; Roy Pancoast of Vineland, N. J., arm broken; chauffeur's assistant, of Wildwood, arm broken; Miss Sadie Murphine, of Millville, back wrenched. Wright, with Frank H. Mullin and Thomas J. Meagher, were in Cape May yesterday closing out a real estate deal. The accident occurred about one mile above Millville, and was caused by the chauffeur's efforts to avoid a horse that was being recklessly driven. In turning out the automobile struck the carriage, overturning it, and was itself overturned. Everyone in the machine was thrown out. The chauffeur alone was uninjured, and as soon as he regained his feet he saw that Mr. Wright was missing. A moment later he was found stretched along the road with one half of his head crushed in. He had been killed instantly.

Ran Amuck.

London, April 17.—A great story of the doings of a maniac is contained in a story from Lisbon. The dispatch says that the inmate of a madhouse at Torres Vedras, which is 27 miles from Lisbon, was receiving a visit from his father, when he suddenly knocked the visitor down and escaped from the institution. The lunatic entered a restaurant and seized an enormous carving knife and wounded the proprietor. The man then rushed out of the restaurant and slashed right and left at people in the streets. By this time, a crowd had gathered and followed the lunatic, who suddenly turned and seriously wounded a number of his pursuers. The madman next rushed into a house and plunged the knife through the heart of a woman about 78 years old, death resulting almost instantaneously. He then ran up to the roof of the house and pelted his pursuers with tiles. He forced two men, who were armed with pitchforks who had come to capture him, to jump from the roof to the street. Both were terribly injured. Eventually the maniac was lassooed and returned to the madhouse.

Mutiny at Tiflis.

Berlin, April 17.—The Schlessig-Zeitung says today that a mutiny has occurred at the military garrison at Tiflis, Russian-Trans Caucasus, because the authorities dissolved a meeting of soldiers stationed at the garrison which was held to discuss grievances. About one hundred of the ringleaders were arrested and placed in confinement. Upon learning of the arrest of the ringleaders, half of the garrison, proceeded to the barracks, armed themselves with rifles and began a mutiny. The remaining half of the garrison however, maintained loyalty to the Czar, and fought the mutineers. A bloody battle ensued, and when order had been restored it was found that 315 soldiers have been killed and 855 wounded.

Mitchell's Proposals to be Rejected.

New York, April 17.—The anthracite coal operators meet this afternoon, at the Jersey Central building, to draft the formal reply to John Mitchell's latest proposal for arbitration. The reply will contain a flat refusal of Mitchell's propositions, and will give at length the reasons why the operators' form of arbitration should be adopted. The operators, in order that their position may be plainly understood, purpose going over the reasons and causes for their stand in this controversy very fully and carefully. The reply will not be made public much before the latter part of the week.

Shot Wife and Himself.

Baltimore, April 17.—Charles W. Morgan, jr., a baker, shot his wife and himself at 3 o'clock this morning. Morgan will die. His wife will recover. The shooting occurred at the home of Morgan's mother, with whom his wife was living. Mrs. Morgan was in bed with her sister-in-law at the time. Morgan and his wife separated some months ago. He called at he home this morning and demanded to see her. Upon her refusal, Morgan went to her room and shot her. As he was about to be arrested he turned the weapon upon himself, inflicting fatal wounds.

Alfonso in England.

Cowes, Isle of Wight, April 17.—King Alfonso of Spain arrived here this morning in the Spanish Royal yacht Giralda. As soon as the yacht came to anchor Princess Ena, of Battenburg, the king's fiancee, went aboard and welcomed the Spanish ruler. According to the present programme King Alfonso will spend three weeks at the English home of the bride-to-be, during which time all the details of the wedding will be arragned.

Quiet Restored.

Windber, Pa., April 17.—Everything is quiet here this morning, after the outbreak last night. The State constabulary have arrived and taken charge, and the striking miners are completely awed. The bloody termination of last night's disturbance was a terrible blow to the foreign element. No further trouble is at all likely, though there is a bitter sentiment against the deputies.

Rumored Explosion on Battleship.

London, April 17.—A dispatch to the Exchange Telegraph Company from Malta says that a boiler explosion has occurred on the British battleship Prince of Wales. Arrival of Strikebreakers.

Wilkes-Barre, Pa., April 17.—Several car loads of strike breakers arrived in this city from Jersey City last evening and were sent to the several collieries hereabouts and to washeries which are being operated at this city and Plymouth. Over one hundred imports with colored cooks were taken to the Delaware & Hudson No. 2 colliery at Plymouth last evening, and placed inside the stockade. They are being accommodated in twenty freight cars fitted up with living, cooking, and sleeping quarters. It is reported that an attempt will be made to operate the washery there tomorrow. Old employees, steam and repair men at this colliery, who were permitted to work under Mitchell's suspension order, quit work when the imports arrived. The idleness and uncertainty has resulted in several riots in this valley and the new State police have been busy arresting the offenders for assault.

Preparing for Trial

Greensboro, N. C., April 17.—U. S. Circuit Judge Goff, of West Virginia, and District Attorney Lewis, of Virginia, have arrived here to take up the trial of Congressman Spencer Blackburn, of the Eighth North Carolina district, indicted on several counts under section 1, 782 of the Revised Statutes for receiving fees for practicing before government departments at Washington after his election to Congress. The trial will not get under way until late this afternoon. It is stated today that Blackburn's main defense will be that he was not an officer of the government until he was sworn in office, despite the plain terms of the statute. The case will consume several days and developments promise to be of the sensational order if defendants' threat to put certain high federal officials on the stand is carried out.

The Damage by Vesuvius.

Geronimo Critically Ill.

Lawton, O. T., April 17.—The old Apache warrior, Geronimo, is critically ill at his home on Fort Sill reservation. He is 76 years old, and is living with his eighth wife, to whom he was married last Christmas. Members of his tribe declared today that the old chief could live only a few days. Geronimo's biographer called on him Sunday and to him the old chief said: "I am praying to the white man's God, who has made me a man fit for heaven, to spare my life for a few years longer; to spare it until I am freed from custody, and to see my people in free homes. God knows my heart is good, but I am telling Him my people need me here more than I am needed in a better world."

New York Stock Market.

New York, April 17.—After a show of strength in the early trading the prices of important issues yielded again as they did yesterday. The Standard Oil houses were buyers and it was the belief in the crowd that the buying of the last two days has been for one of the Rockefellers. There is a disposition to believe that John D. Rockefeller, jr., has been the principal factor on the bulling of stock. What is regarded as the "talent" on the floor of the exchange, the room traders, were aggressive on the bear side.

Fifty-ninth Congress.

Washington, April 17.

SENATE.

The Senate today listened to a remarkable speech by Mr. Tillman, of South Carolina, in which he inveighed against alleged corrupt practice of national banks.

He urged the adoption of his dragnet resolution, which directs the Senate committee on finance to investigate and report whether criminal and civil prosecutions should follow the discovery, if such be made, that national banks have been contributing in aid of campaign committees; or have been guilty of irregularities in recent bank failures in Chicago or have been paying Ohio county treasurers a bonus for the deposit of public funds in their institutions.

Mr. Tillman declared that startling information had come to him and he wished to fasten responsibility for nonaction upon these who deserved it. He contended that the purification of the banking system was a necessary reform. He sent to the clerk's desk an article charging that banks had filled the campaign chest of Chairman Hanna, of the republican national committee; that leading democrats had been aware of but had suppressed the facts, and that Senator Knox of the Senate committee on privileges and elections, was prominently connected with one Pittsburg bank which had contributed. These charges were made by J. W. Breen. Mr. Tillman said that nothing has been done to correct such abuses by legislation, as he had been promised some weeks ago by the committee on privileges and elections.

"When I laid my charges of corruption before that committee," he declared, "the members appeared to be in a comfortable frame of mind—they said that of course there had been campaign contributions, and they said they would report my bill. That was three weeks ago. Nothing has been done."

Mr. Foraker in explaining the good intent of the committee of which he is a member, resented the insinuation that there was any attempt on its part to neglect its duty.

The Senator from South Carolina disavowed any intention of reflecting upon the committee. He said he would now try to have the finance committee investigate but he had no greater hopes in view of the approaching election.

He submitted letters of endorsement of Mr. Breen by Mr. Knox, Vice President Fairbanks, and others which brought an announcement by Mr. Knox that Mr. Breen was "a reliable and honest man."

"Does that satisfy the Senator from Massachusetts?" (Lodge) Mr. Tillman asked, having reference to an inquiry as to Mr. Breen's standing.

Mr. Lodge said he was merely asking for information.

Mr. Tillman parenthetically retorted that he supposed the Senator thought the writer was a "muck raker."

HOUSE.

The House met at 11:30 today in continuation of the legislative session of yesterday, which ended with a recess, instead of an adjournment, until today, so that business under suspension of the rules might be continued.

The measure pending was the proposition to pass the House bill authorizing the extension of the government's quarantine powers in cases of yellow fever epidemics as an amendment to the bill which has already passed the Senate. The Senate bill, thus amended, was passed, 172 to 22

Olivet to Calvary.

The choir of St. Paul's church, assisted by Mr. Kenneth Ogden, tenor, will sing "Olivet to Calvary," by J. H. Maunder, Thursday evening, April 19th, at eight o'clock.

"Olivet to Calvary" recalls simply and reverently the scenes which mark the last few days of the Saviour's life on earth, and some of the reflections suggested thereby. The rejoicing of the multitude with hosannas and palms, the view of Jerusalem from the steep of Olivet, the lament over the beautiful city, the scene in the Temple, and the lonely walk back over the Mount at night, form the chief features of the first part.

Part II. opens with the Supper of the Passover, at which Jesus washes His disciples' feet, and gives to His friends the new commandment of love for one another as the sign of true discipleship. From this the scene passes to the infinite pathos of the Garden of Gethsemane, the sudden appearance of the hostile crowd, Jesus forsaken by His disciples, His utter loneliness among ruthless foes, the tumult before Pilate in the Judgment Hall, the Passage of the Cross, the tragedy and triumph of Calvary.

The choir has had this work in preparation some weeks and expected to have sung it during Lent, but the delay in completing the new organ and chancel made it necessary to postpone its rendition till Thursday next.

No cards of admission are necessary. A silver offering will be taken for the benefit of the music fund.

Death of Captain Herbert.

Capt. Upton H Herbert, who had recently been undergoing treatment at the Alexandria Hospital, died at that institution at 2 o'clock this morning. The deceased was in his 86th year. He was a son of the late William Herbert and a brother of Col. Arthur Herbert. He was born at Shooters' Hill in Fairfax county, near this city, and had resided in this neighborhood throughout most of his long life. At the outbreak of the Mexican war he was a lieutenant in Captain Fairfax's company in which he served during that conflict. At the close of hostilities he returned to Fairfax county, where he had since resided. In the latter part of the fifties, when the Ladies Mount Vernon Association took charge of the home of Washington, he became superintendent, a position he held for years, being in charge of the property during the civil war. He later removed to his estate near Burke's station and was engaged in farming up to a comparatively recent period. The deceased left no children. His wife, who was Miss Sarah Tracey, died about ten years ago. Captain Herbert was a true type of the old-time Virginia country gentlemen, and throughout his long life enjoyed the respect and confidence of all who knew him.

Left Baby at Depot.

A colored excursion train from Richmond for Washington passed over the Washington Southern Railway yesterday. The train stopped at the union depot when a colored woman with a two-year-old baby alighted. She asked one of the colored porters to take charge of the child for a few moments, but when the train was starting she boarded one of the cars and left the baby with the porter. The child made some attempts to talk when it was learned that its name was Maud. Special Officer L. Hardin later went to Washington in search of the woman who had deserted the child. He learned that when she boarded the train at the union depot that one of her fellow-passengers called her attention to the fact that she had left her baby, and that the woman replied: "It makes no difference. It was not my child." The special officer communicated with the Washington police and the woman was identified and compelled to return to the depot and take charge of the baby. She was accompanied on the return trip by a colored man from Washington.

Visitors to the City.

The city has been thronged today with members of the Daughters of the American Revolution now in session in Washington. Numbers of male escorts have accompanied the members of the organization. All the points of interest have been inspected by the visitors. Electric cars crowded with passengers have passed down in sections for Mount Vernon. As is usually the case, numbers of enterprising boys, both white and colored, have followed the visitors and offered their services as guides. These youths hazard life and limb in boarding and alighting from moving trains, and the attention of the police has been called to their temerity. Besides the importunities of these would-be guides often prove an annoyance to tourists.

Rechabites.

Perservance Tent, No. 1007, I. O. of R., held their weekly meeting last night. Three names was proposed for membership and one candidate was initiated. After the business of the tent had been transacted the doors were opened for an open meeting and quite a large number of friends entered. The following programme was rendered: Open ode by all; reading by R. H. Bartlett; piano duet; reading by Geo. Jamieson; piano solo by Miss Langford; recitations; reading by Richard Rambo; piano duet; reading by Herman Godfrey; music by Lambert Sullivan; solo by Miss Thompson, of Washington; reading by Mr. Thompson, of Washington; cornet solo; vocal solo by Mr. Cary, and piano solo by Mr. R. Sullivan.

Oysters.

This is the last oyster month until September. The season hereabouts has in no wise been brisk, but few large and well-flavored bivalves having reached this city. Most of the finest specimens are placed on steamers and trains and sent to other markets where they command fancy prices. There were, however, some good varieties at the wharf this morning. They ranged in price from 60 cents to $1 per bushel.

Police Court.

[Justice H. B. Caton presiding.]

The following cases were disposed of last night.

William Holmes, arrested by Officer Garvey charged with assaulting Harrie Sims with a razor, was dismissed.

Louisa Taylor, colored, arrested by Officers Gill and Sherwood charged with disorderly conduct, was dismissed.

Millie Ford, colored, charged with petit larceny, was sent to the work house for 60 days.

Opera House.

The Jolly Bonnie Vance Company opened a week's engagement at the Opera House last night in "Our Flats," a three act comedy full of good situations and a laugh from start to finish. The company is composed of a number of good comedians, who kept the audience in a roar of laughter. The part of John Smith was taken by Ralph Brownie in an excellent manner, while the parts of Sergeant Duffy and Nora were faithfully portrayed by Vic Stone and Miss Anna Marion. Among those in the cast was a former Alexandrian, Mr. Rae, who some time ago kept a bicycle store on King street. Mr. Rae played the part of Dick Desmond in excellent style. The show is replete with many specialties of high order which were heartily enjoyed. This company carries more specialty artists with it than any that has been here this season. The singing and dancing were decidedly good Tonight the company will produce "All a Mistake," a play for laughter only. New specialties will be introduced. Those wishing to see a good show and enjoy a hearty laugh should visit the Opera House this week.

The Fishery.

There was a strong current in the river yesterday, but it had diminished in force today, though the water is still muddy, which is retarding the fishery in the upper river. Some herring, however, are being caught higher up the Potomac, 9,000 herring having been taken at Ferry Landing yesterday.

Ninety-seven barrels of herring which were brought here from Coan and Yeocomico rivers last Saturday on the Baltimore steamer were placed aboard the steamer Norfolk last night for transportation to southern points.

Affairs at Fishtown had improved slightly this morning One hundred and ten thousand herring were at the wharf. The demand was still in excess of the supply and prices were unchanged.

Sent to the Chain Gang.

James Johnson, colored, made complaint at the station house yesterday that Nora Green, a well-known colored man of the "Petersburg" section, had robbed him of $2.30, the complainant alleging that Green had stolen the money from his pocket. Officers Knight and Ferguson arrested Green and he was arraigned before Justice Caton this morning. A colored woman in whose house the robbery is alleged to have taken place testified to seeing Green take Johnson's pocketbook while the latter was asleep. The defendant stated that he had loaned Johnson his pocketbook and was engaged in recovering his own property when seen by the witness. Green was sent to the chain gang for 60 days.

Boothe, registrar; Harry Yohe, treasurer. Dr. L. M. Blackford was chosen delegate to the Episcopal council, which meets in this city on May 16th, and Mr. W. A. Smoot, alternate. The wardens and Messrs. G. L. Boothe and G. S. French were appointed a committee to act in conjunction with similar committees from St Paul's and Grace churches to make arrangements for entertaining the members of the council.

TUESDAY EVENING. APRIL 17, 1906.

Race War.

In a race riot at a ball game just outside of Mount Airy, N. C., yesterday afternoon, resulting from the attempt of Deputy Sheriff U. G. Bellon and Officer John Samuels, to arrest Walter Penn, a negro, who was selling "blockade" whisky, a mob of negroes overpowered the officers, took away their arms, and fired a score of shots at them. George Long, a negro who was trying to restore order, was shot in the head and killed by Robert Penn, a negro of the mob. The officers escaped only by holding negro women between them and their assailants.

As soon as the news reached the town the citizens hastily armed themselves and made for the scene of action, determined upon driving all the negroes out of Mount Airy. The affray took on the proportions of a race riot, but serious results were prevented by the timely action of Sheriff J. N. Davis, who called out the military company.

The militia succeeded in dispersing the mob and restored quiet in the town. It is not likely that the disturbance will again raise, but the authorities have taken ample precaution. The ringleaders of the mob have escaped to the woods.

Mount Airy is a town of about 4,000 people, and industries give employment to many negroes.

Dowie in Postal Muddle.

John Alexander Dowie threw the postmaster at Zion City into a fit yesterday when he notified him that "his soul would be eternally damned" and he would be prosecuted criminally if he allowed the last issue of the "Leaves of Healing," containing attacks on Dowie, to go into the mails. The postmaster held up a part of the edition and asked the postoffice authorities for a ruling.

Conferences between counsel for Voliva and Dowie are still in progress. The 5 per cent. basis of settlement for Dowie is not to come out of Zion until creditors are paid $1,000,000. That the 5 per cent. may not equal $400,000 is the opinion of the best judges of Zion assets.

As a result of recent developments Mrs. Anna Peterson, a widow, 50 years old, became violently insane yesterday morning. On Saturday she began to show signs of unusual mental excitement. Her condition grew worse rapidly until she became unmanageable and was placed under restraint.

War on the Pool Rooms.

In an effort to entirely disassociate racing in New York State from any connection with pool room gambling in New York city or elsewhere the Queens County Jockey Club at Aqueduct yesterday took charge of all telegraph wires running into the grounds and established a strict censorship over all telegrams, incoming and outgoing, with a dead-line delay of 20 minutes on all of the outgoing messages. All telephone connection with the track had been discontinued, and the only way that the results of yesterday's races could be known to the outside world quicker than the time limit fixed by the Jockey Club was by the sending of messengers from the track inclosure to some point in the vicinity of Aqueduct where a telephone was available.

Clean up and get ready for spring. Take a few Early Risers. These famous little pills cleanse the liver, stomach and bowels and give the blood a chance to purify itself They relieve headache, sallow complexion, etc. Sold by W. F. Creighton & Co., 401 King street.

From Prison to Altar.

John M. King, a former Richmond alderman, who served a year in the city jail for extorting bribes from contractors while a member of the street committee, left yesterday for Boston to be married. He was engaged to Miss Mary Helen Fitzwilson at the time of his conviction, and while all of Richmond discussed his "grafting" and his friends thought he was taking punishment to shield others, Miss Fitzwilson remained in his confidence and true to her love. They will be married at the home of the bride's brother, Edward Fitzwilson, in Boston, where she has been living for some months. She is a daughter of E. C. Fitzwilson, and was regarded as one of the most beautiful brunettes in Richmond. They will reside in Richmond.

Can you believe your senses?

When two of them, taste and smell, having been impaired if not utterly destroyed, by Nasal Catarrh, are fully restored by Ely's Cream Balm, can you doubt that this remedy deserves all that has been said of it by the thousands whom it has cured? It is applied directly to the affected air passages and begins its healing work at once. Why not get it today? All druggists, 50c, or mailed by Ely Bros., 56 Warren street, New York, on receipt of 50 cents.

Chamberlain's Cough Remedy the Best and Most Popular.

"Mothers buy it for croupy children, railroad men buy it for severe coughs and elderly people buy it for la grippe," says Moore Bros., Eldon, Iowa. "We sell more of Chamberlain's Cough Remedy than any other kind. It seems to have taken the lead over several other good brands." There is no question but this medicine is the best that can be procured for coughs and colds, whether it be a child or an adult that is afflicted. It always cures and cures quickly. Sold by Gibson & Timberman and W. F. Creighton & Co.

Arrow Shields.

The other day I saw a little, modern book, in a green cover, on a table in a drawing room. I picked it up. It was about the early French in Canada, and my eye fell on a copy of a drawing by their leader, Champlin, or Champlain. The scene represented was an attack by the native allies of the French, the Algonquins, on a fort held by Iroquois. The Algonquins advanced through showers of arrows under shields nearly as tall as themselves, like doors with rounded tops. Now, you may see exactly the same sort of shields in a picture of a lion hunt, inlaid in gold and silver, on the bronze blade of a dagger found by Dr. Schliemann in "the grave of Agamemnon." These monstrous Mycenaean shields cause much discussion among the learned. Why were they so huge? The Algonquins used the very same shields, hung from their necks, and the reason was the same—their battles were battles of archers, and nobody can parry a shower of arrows with a smaller shield. Shields grew small in Greece as bow and arrow went out and sword and spear came in.—London Illustrated News.

The Fiddle Drill.

The "fiddle drill" is one of the oldest stonecutting tools in existence. It is said to antedate Greek sculpture and is in use today in about the same form as it was 2,000 years ago. As its name implies, its action resembles a fiddle. The drill is of two pieces. In one hand a carver holds the drill stock, which is like a carpenter's brace, except that it is straight instead of having a crank. In the other hand he holds the "bow," which is strung with a brass wire and which is given a turn around the drill stock. To use the drill the carver places the drill stock against his breast, holding it with his left hand, and with his right he draws the bow back and forth, fiddle fashion. This imparts a rotary motion to the drill stock, and the drill is ground to cut in either way it turns. The fiddle drill is used in the finest work, in crevices where the sculptor could not reach with his chisel and hammer without endangering the carving.

The Worrying Habit.

I asked a physician what cure he would suggest for the worrying habit. "I would prescribe common sense," he said. "And if a man or woman hasn't got a stock on hand and can't cultivate one no doctor can give it to him or her. This worrying nonsense grows. The best means to cure it lies in the hands of the woman herself. If she will just call a little common sense to her aid, resolve not to borrow trouble, to be cheerful and think upon the best side of things, she will live longer and retain her beauty longer. Every woman wants to keep beautiful to the last. Why does she take the course which is sure to make her yellow skinned, dull eyed and thoroughly unlovely?"

Why, indeed?—New York Globe.

Vanilla.

It is curious to read that vanilla was employed by the Aztecs of Mexico as an ingredient in the manufacture of chocolate prior to the discovery of America by the Spaniards and that it was brought to Europe as a perfume with indigo, cochineal and cacao ten years before the arrival of tobacco on our shores. The name vanilla is derived from the Spanish vaina, a pod or capsule. Dampier described it as a little pod full of small black seeds and like the stem of a tobacco leaf, so much so that his men when they found the dried pods at first threw them away, "wondering why the Spaniards should lay up tobacco stems."—Chambers' Journal.

The Canadian Line.

The boundary line between Canada and the United States is marked with iron posts at mile intervals for a great part of its length. Cairns, earth mounds and timber posts are also used, and through the forests and swamps a line a rod wide, clear of trees and underwood, has been cut. Across the lakes artificial islands have been made to support the cairns, which rise about eight feet above the high water mark. —Exchange.

A Miser's Wish.

Greedylot, who is rather miserly, was recovering from a long illness. "How was it, doctor," he asked one day, "that I was able to live so many weeks without eating?"

"Why, you were fed by the fever."

"Are you sure?" Then after a moment's reflection, "I wish I could give it to my servants."

Speaking Their Minds.

The queer thing about the people who boast of always speaking their minds is that they nearly always have such disagreeable minds to speak. Did you ever hear any one preface a compliment, a commendation or anything gracious or pleasant by saying, "I always must speak my mind?"—Woman's Life.

On the Common Highway.

We are learning that a standard of social ethics is not attained by traveling a sequestered pathway, but by walking on the thronged and common road where all must turn out for one another, and at least see the size of one another's burdens.—Jane Addams.

Foolish.

By six causes a fool may be known: Anger without cause; speech without profit; change without motive; inquiry without an object; putting trust in a stranger, and wanting capacity to distinguish between friend and foe.

Puzzled.

Johnnie—What does that notice say over there, mother? Mother—It says, "No dogs admitted." Johnnie—But the dogs can't read, can they? How are they to know?

Danger From The Plague.

There's grave danger from the plague of Coughs and Colds that are so prevalent, unless you take Dr. King's New Discovery for Consumption, Coughs and Colds. Mrs. Geo Walls, of Forest City, Me., writes: "It's a Godsend to people living in climates where coughs and colds prevail. I find it quickly ends them.
